

## MARCH 2012 TRAINING

### FEATURED COURSE

#### TRAIN THE SAFETY TRAINER

This one-day course is designed for anyone who may be required to give a toolbox talk or hold a safety meeting. Participants will learn tips on how to engage an adult audience for the purposes of communicating safety information at the site level and will practice presentation development and instruction skills using a 'toolbox/tailgate' talk format.

Please Note: This course uses a simulation format. You will be asked to deliver one short lesson. In addition, you will be asked to participate as a learner during the lessons that are taught by your colleagues.
