

Igor Poldrugo

Director

Elworthy Electrical Services Ltd.

Igor Poldrugo started his career at Elworthy Electrical Services Ltd. after graduating from the British Columbia Institute of Technology, working his way from apprentice through to manager. This journey has allowed Igor to grow on a professional level and he hopes to share his wide range of knowledge and experience with ECABC's Board and membership.

Over 20 years in the electrical contracting industry has provided Igor with the opportunity to fully understand the external and internal operations of the trade and business—giving him the insight and experience required to navigate forward in growing and strengthening ECABC's presence in the industry.

Igor has been an active member of ECABC for over seven years, and has enjoyed attending chapter meetings, workshops, participating in seminars, educational series, and AGMs. He is looking forward to increasing Elworthy's participation in the Vancouver Chapter and growing the Association's valued membership.

Igor believes a saying from his rugby club that unites all divisions—"many teams, one club"—rings true for ECABC, as all members must unite for the greater good that helps them all succeed.

Outside the electrical trade, Igor has a history of extensive community involvement, including coaching youth football, supporting education fundraising and participating in Saint Paul's Hospital Foundation's *Lights of Hope* and the Leukemia and Lymphoma Society's *Light the Night*.
