

Shawn Boyd

Past Chair

Houle Electric Ltd.

As Vice President of Service, Shawn plans and leads the Service and Facilities Management group operations, ensuring the delivery of excellent customer experiences and prompt, high quality professional workmanship.

Shawn joined Houle in 1990. He began his electrical career as an apprentice with Houle and spent four more years in the field as a Journeyman/Foreman. In 1998, Shawn moved into Project Management, and became Construction Division Manager for the Nanaimo and North Island Regional Offices in 2005. During this time, Shawn demonstrated exceptional skills in design-build projects, healthcare projects, communications cabling and public infrastructure (water/waste) upgrades. In 2008, Shawn's work for the Nanaimo Regional General Hospital's new Perinatal Services Building was recognized by the VRCA, winning the top Gold Award in the electrical construction category.

Shawn accepted the position of Vancouver Regional Manager in 2013, Regional Director in 2018, and his current role as Vice President of Service in 2019. Shawn holds an Electrical TQ Certificate (BC) and has extensive training and experience in Business Management, Project Management and Estimating.

Shawn is an active Director on the Board for the Electrical Contractors Association of BC (ECABC); a Trustee for the Joint Electrical Industry's Welfare Plan and for the Joint Electrical Industry Bursary Fund; and is on the Construction Labour Relations Association of BC (CLRA) Board of Directors.
