

Bio For ECABC Event

Oliver has worked at FLO, Canada's leading EV charging manufacturer and network, for 18 months and is Western Canada's Channel Sales Representative, looking after the company's relationships with municipal and distribution partners, as well as electrical contractors within the territory. In addition, Oliver assists with finding available grants for end customers, right sizing projects, and sending budgetary quotes on projects. He will be joined by Yomna, from the application engineering team, as well as associates from Macs II, who represent FLO as an agency partner in BC.
